Missouri celebrated Local Government Week May 1-7, 2016. To celebrate locally, the city of Mound City sponsored a photo contest titled "Capture Mound City." People in the area were asked to take a picture of something that "captures" what makes Mound City a special town.

Four winners were named in the photo contest. The grand prize winner is Gretchen Staples of Mound City with a photo of an eagle at the Squaw Creek National Wildlife Refuge. "The American Bald Eagle represents a big part of Mound City," states Gretchen. "These beautiful birds make their home at the Squaw Creek Refuge during the geese migration. These majestic birds have their own days named after them - Squaw Creek Eagle Days."

The first place winner is Susan Laukemper of Mound City. Her photo shows the Mound City R-2 school on a beautiful spring day. "What could be more Mound City than our school?" says Susan. "Students at Mound City R-2 have won many academic and athletic honors."

The winner of the second place picture is Judy Poland of Big Lake, MO, with a photo of Griffith Park. Griffith Park is located at the north end of Mound City near the swimming pool. "'The View Through the Window' shows great pride in providing Mound City a great place for youth to play and parents to watch," explains Judy.

Third place honors in the photo contest go to Susan Laukemper, showing the Mound City Museum. "The once active train depot now houses the Mound City Museum," states Susan.

Gretchen Staples' grand prize photo will be enlarged onto canvas and displayed at Mound City City Hall. The other winners' photos can be seen at City Hall.

The elementary children at Mound City R-2 participated in the "Capture Mound City" contest by coloring an original picture of an important part of Mound City. The pictures will be on display at City Hall on a rotation basis, eventually showing all of the entries.

Lilly Nauman, daughter of Jeff Nauman, is the grand prize winner from the kindergarten class. Her picture is the Mound City R-2 school. Runners-up from kindergarten are Max Knowles, Isabel Atkins, Elena Gillenwater and Peyton Farr.

Heath Bierman, son of Greg and Aubre Biermann, is the grand prize winner from the first grade class. His picture is the Hiawatha Implement John Deere building (where his dad works). Runners-up from first grade are Layla Formanack, Jaylynn Wilmes, Maggie Osburn and Graclyn Brandon.

"Welcome to Fabulous Mound City" with Shakers on Highway 59 (complete with drive-through). Runners-up from the fourth grade are Ava Barnes, Trisha Murphy, Riley Olason and Cole Gillenwater.

The celebration of local government allows the public to recognize:

- Children climbing safely on the school bus.
- Local roads cleared of snow in winter, and potholes fixed in the spring.
- Clean water coming out of the tap each morning.

- A convenient location for a local polling place.
- Friends and neighbors serving on the school board, setting a direction for the next school year.
- A favorite local park.
- First responders to a fire, traffic accident or emergency.
- Law enforcement patrolling the streets.
- The convenience of trash service right at the curb.

Local government ensures a quality of life through services that many do not think about.

Gavins Point releases reduced to lessen downstream flooding

Runoff in the Missouri River Basin above Sioux City, Iowa, was 2.6 million acre feet (MAF) during April, 89 percent of average, according to the U.S Army Corps of Engineers (Corps). "Conditions in most of the basin during the first half of April were dry and warm. However, heavy rains during the last half of the month increased runoff into the reservoir system," said Jody Farhat, chief of the Corps' Missouri River

Basin Water Management Division. The widespread rain also increased flows on many of the tributaries that join the Missouri River below the reservoir system, causing river levels to rise above flood stage. "Rain-fall events like we've seen over the past couple of weeks can cause localized flooding downstream of the reservoir system. Gavins Point releases were reduced from 21,000 cfs to 14,000 cfs over several days because many locations downstream of Nebraska City rose above flood stage," said Farhat.

When possible, the Corps will utilize the available flood control space in the reservoirs to limit downstream river levels; however, the ability to significantly reduce flood risk along the lower Missouri River diminishes at locations further downstream due to the large uncontrolled drainage area and the travel time from the Gavins Point Dam. "Flood risk reduction remains a primary consideration as we progress through 2016. While the risk of widespread flooding from upper basin runoff is low this year, floods can and will occur as a result of spring and summer thunderstorms, particularly along the lower Missouri River where soil moisture is much wetter than normal," Farhat added.

Gavins Point releases will be increased as the downstream stages fall, which will slow the decline of the river, but will not contribute to peak stages.

The Holt County Historical Society is looking for answers to these questions that have been submitted by researchers.

RECOGNIZE ANYONE IN THIS MAITLAND THIRD AND FOURTH GRADE CLASS?

The pretty young schoolteacher on the back row is Miss Marjorie Abbott (who later became Mrs. Everett Wright), who was loved by all her students.

Gerry Patterson (a student in the picture), was gathering a display of school photographs for the upcoming Maitland Alumni Banquet. He donated several school photo copies to the Genealogy and Research Center files.

RECENT GENEALOGY AND RESEARCH CENTER QUERIES INCLUDE:

* From Ojai, Ventura County, California, a descendant of early day Holt County settlers Solomon and Elizabeth (Jennings) Catron, requesting information about the family. Wanting area information for a July trip to Holt County to visit cemeteries, Holt County courthouse records, and hoping to meet Catron descendants in the area (Dodson, Bridgeman, Hinkle, Gresham).

*Spending this week in Mound City is a researcher from California, to find out more about the Wherli family and the location of the Wherli Mercantile on State St. A stop in the Nodaway Valley Bank to view the photo collection of early day Mound City provided many details. An all day search on Monday through the center's obituaries and family files, the collection of Jeanette Wherli scrapbooks, the Erma Hinkle Mound City clippings scrapbooks, and the Ross Grove School record uncovered more information. A date was set to meet up with Norma McCurry and Cindy Kenny for a day-trip to area cemeteries. The Wherli home, on Nebraska St., is now owned by Marjorie Field. The Wallace family are "cousins".

* From Sioux City, IA, a call searching for obituaries and information about the Gleason family who lived in the Craig area. Many of the family members are buried in the Guilliams Cemetery near Craig.

* Collecting information about Jacob J. and Susannah Acton Kunkel, both buried in Nichols Grove Cemetery, for a researcher in Dayton, OH.

Mr. Ceglenski was a native of St. Joseph.

• Honor graduates for the class of 1966 were Mound City valedictorian Jackie Dearmont and salutatorian Myra Kay Norman. Craig R-III valedictorian was Patricia Lawrence and Stanley Wright was salutatorian.

• Mound Citians would have the opportunity to hear one of their native sons deliver the Mound City R-II Commencement address. Dr. Jack A. Kinder, who was superintendent of schools at Newton, Kansas, was to be the guest speaker.

Missouri's Parks, Soils and Water sales tax will be on November ballot, Gov. Nixon announces

Gov. Jay Nixon recently announced that Missouri's Parks, Soils and Water sales tax, which is up for renewal this year, will appear on the November ballot.

"Missouri's farm families have long been innovators and leaders in protecting our soil, air and water. That's why we were the first state in the nation to pass a Parks, Soils and Water sales tax more than 30 years ago," Gov. Nixon said. "Missourians have given this program their support for several decades, and I am confident that support will continue for many years to come."

"Soil and water stewardship is important to Missouri farmers, and we are fortunate to have a state program that helps farmers implement costly, but needed, conservation practices on their land. Missouri is the envy of other states with the improvements made possible by the one-tenth cent parks and soils sales tax, both for soil and water conservation and for our state parks," said Missouri Farm Bureau President Blake Hurst. "We appreciate Governor Nixon's support for renewal of this landmark program and encourage Missouri voters to renew it once again this November."

"Missouri corn farmers have a long history of investing in our soil and natural resources," said Morris Heitman, President of the Missouri Corn Growers' Association. "The parks, soils and water effort extends an existing program that has proven itself valuable to agriculture and conservationists alike."

"Missouri soybean farmers are firmly committed to ensuring the long term sustainability of our state's natural resources," said Missouri Soybean Association President Matt McCrate of Cape Girardeau. "The parks, soils and water sales tax has had a key role in upholding that commitment. We've benefited from 30 years of suc-

cessful partnership, bringing Missourians together on the common goal of ensuring the wise use of our natural resources, and we are committed to continuing that partnership moving forward."

Missouri's Parks, Soils and Water sales tax was created through a constitutional amendment specifically to support efforts to stop soil erosion and provide funding for the state park system. The tax was first approved by voters in 1984, and has since been reapproved by voters three times in 1988, 1996 and 2006.

Agriculture is Missouri's number one industry. With nearly 100,000 family farms and 28 million acres of farmland, agriculture is a twelve billion dollar business in the Show-Me State, creating nearly 300,000 Missouri jobs. Missouri's Parks, Soils and Water sales tax provides funding for the Missouri Soil and Water Conservation Program, which assists farmers and landowners with soil and water conservation by providing partial reimbursement for a number of management practices.

Since the tax was last renewed in 2006, more than 61,000 conservation practices have been implemented through \$348 million in cost-share grant projects coordinated by Missouri's local Soil and Water Conservation Districts. To date, more than 177 million tons of soil have been prevented from eroding into Missouri's streams, rivers and lakes.

Missouri's Parks, Soils and Water sales tax is also the primary source of funding for Missouri's nationally acclaimed 88 state parks and historic sites.

The 2016 General Election will be held on Nov. 8, 2016.

Missourians who are not yet registered to vote can find registration information on the Missouri Secretary of State's Website, www.sos.mo.gov.

Sheriff's office to receive two new vehicles; commissioners discuss bridge repairs

The Holt County Commission met Monday, April 25, at 9 a.m., at the Holt County Courthouse in Oregon, MO. Presiding Commissioner Mark Sitherwood, First District Commissioner Bill Gordon and Second District Commissioner David Carroll were in attendance.

County Clerk Kathy J. Holstine presented minutes for approval. Following review, a motion was made, seconded and passed to approve the minutes.

Bob Ripley, *Oregon Times Observer*, joined the commission to invite the commissioners to a meeting on Friday, April 29, with Catherine Hanaway, candidate for Missouri Governor.

Brenda Nelson, R.N., Health Department Administrator, met

with the commission to discuss the possibility for a summer food program, but no county business or organization participated in the contract.

Sheriff Scott Wedlock appeared before the commission to discuss a formerly tabled matter to purchase one Dodge Durango and one Dodge pickup truck to add to the sheriff's patrol vehicle fleet. He had received a quote from 911 Customs to properly outfit the vehicles to patrol car specifications including light bars. Commissioners discussed the purchase and agreed to bid for financing of the two vehicles and associated components necessary for police service with the purchase price of approximately \$28,100 for each vehicle and \$6,300 each in police

package installation. Commissioners acknowledged that there is no budget appropriation for a new vehicle purchase in the 2016 budget, but approved the purchase with financing to start in April of 2017.

Wayne Flanary, University of Missouri (MU) Extension Agronomist, discussed MU student participation in a clean-up day at Schooler Cemetery near Maitland, MO. Glenn Caton provided a brush cutter and David Carroll furnished a tractor and loader for the work. Mr. Flanary presented before and after pictures of the project.

Road and Bridge Supervisor Daryl Biermann provided an update on equipment repairs and various roadway issues being ad-

ressed in the county.

Commissioner Carroll reported that Norris Quarry donated 85 tons of rock for Holt Road 190. Kinney Construction plans to donate 125 tons of rock on Holt Road 120 between Highway 113 and Raintree Drive, 62.5 tons on Hagar Drive north of Holt 130, and 62.5 tons of rock on Greystone Drive north of Holt 130 to bring those roadways back into pre-construction condition. Carroll also noted that Road and Bridge employees replaced a corrugated metal pipe on Lincoln Road earlier in April.

Being no further business, the commission adjourned until Monday, May 2.

The Holt County Commission met Monday, May 2, at 9 a.m., at the courthouse. Presiding Commissioner Mark Sitherwood, First District Commissioner Bill Gordon and Second District Commissioner David Carroll were in attendance.

Carla Markt, Oregon, approached the commission to provide an update on a recent Missouri River Recovery and Implementation Committee (MRRIC) work group meeting she attended in Omaha, NE. She discussed Adaptive Management strategies being considered by the United States Army Corps of Engineers and potential impacts to land in Holt County with spring or fall increased releases from Gavin's Point Dam to allow for creation of piping plover and pallid sturgeon habitat.

County Clerk Kathy J. Holstine discussed PW00165, a project on Holt Road 130 to replace a damaged box culvert from storms that occurred in September, 2014. The repair project is part of a Federal Emergency Management Agency (FEMA) disaster declaration. The county has requested an "Improved Project" to allow for a 61 feet long, 9.5 feet diameter, step-bevel corrugated metal pipe to be placed in the waterway rather than repairing the old concrete culvert. Ms. Holstine reported there is a dis-

crepancy with State Emergency Management Agency (SEMA) related to the Improved Project. Commissioners wish to proceed with FEMA project funding of approximately \$20,000 rather than repair the project wholly with county funds. Ms. Holstine will prepare the documents necessary to request reimbursement from SEMA.

Jeff Holstine, Holt County Johnson Grass Board, appeared before the commission to give a report on plans to start work with Bill Keiffer and Russ Marrs working for the board to spray noxious weeds and Johnson Grass on county right-of-way. Mr. Holstine noted he hopes to make three trips around the county over the summer, weather permitting.

Wayne Flanary, MU Extension Agronomist, gave an update on work at the annex building.

Collector Donna Cotton appeared before the commission to present the Annual Settlement of Funds for collections. She reported total distributions to the various taxing entities of Holt County collected through her office up to February 28, 2016, as \$10,225,337.99.

Mrs. Cotton also made a request on behalf of the Holt County Museum and Research Center to take a sapling from a locust tree in the northwest corner of the courtyard. This tree is believed to be the oldest tree in the courtyard and was established prior to the first courthouse being located on the grounds. Commissioner Sitherwood had recently requested to use grant funds for a forestry specialist to survey the courtyard trees. He recommended the museum board work with the forester to choose the right time and location for extracting the sapling.

Road and Bridge Supervisor Daryl Biermann approached the commission to give a departmental report. He noted that Missouri Department of Conservation cost share program rock is nearly complete; truck repairs continue with truck 399 needing a brake

evaluation and truck 299 at Dave's Diesel for repairs. He also noted that Bill Metzgar asked him to make repairs to a corrugated metal pipe on Keystone Road that is rusted out in the bottom. Mr. Biermann has placed the repair on the schedule. Also scheduled for work is the approach to the Little Tarkio River bridge on Holt Road 130 that has a crack in the concrete from someone walking an excavator over the bridge without proper protection. Mr. Biermann asked the commission to consider a temporary repair until engineer Phil Schrick, Professional Engineer (PE), can get approvals for a permanent repair. The crack has now caused the concrete to crumble and the rebar to be exposed. He also reported that Road and Bridge employees have made a temporary repair to the doors at the Mound City Mausoleum. Additional work is needed for Memorial Day. A motion was made, seconded and passed to patch the bridge until approvals can be obtained for a permanent bridge.

Sheriff Scott Wedlock reported that patrol vehicles ordered through Laukemper Motors will be built May 6th or 7th. Bids for financing the cars was set for Tuesday, May 10, 2016, at 10 a.m. Sheriff Wedlock also requested the commissioners approve Commenco as a consultant on the 911 Phase 2 Wireless transition to move trunk lines and alley circuits. Commissioners approved the company's technical assistance for the project.

Being no further business, the commission adjourned until Tuesday, May 10.

Guests were greeted at the door with a "Class Dismissed" sign and tables displaying the three honorees' memorabilia. Dylan Marrs shares district champion title

Two Mound City Panthers are headed to state golf competition after qualifying rounds at districts on Wednesday, May 4, and at sectionals on Monday, May 9. Ben Shifflett, junior, and Dylan Marrs, freshman, placed in the top individuals to qualify for the state golf meet to be held at the Fremont Hills Country Club in Nixa, MO, on Monday and Tuesday, May 16 and 17. This will be Shifflett's second trip to the state golf event as he was a state qualifier last year as a sophomore.

The Class 1, District 8, golf match was held in Savannah, MO, on Wednesday, May 4. Mound City did not compete in the team division, but three Panthers competed in the individual division. Marrs and Shifflett both qualified for sectional competition after placing in the top 15 individuals not on the first and second place teams at sectionals (all members of the top two teams qualified for sectionals). Marrs tied for first place in the district event, carding an 84 on the par 71 course. He tied with Tristan Dye of Mid-Buchanan (Faucett) and Caden Wilson of Albany. Mid-Buchanan and Albany placed first and second in the team competition, respectively.

Shifflett stroked a 94 on the par 71 course to place in the top 15 individuals to qualify for sectionals. The other Panther golfer

at district competition was Zach Marks, a senior, who shot a 112 at districts, leaving him six places out of qualifying for the sectional event.

Other northwest Missouri golfers making it to sectional play were Jase Hughes of Rock Port; Jayton Johnson of Fairfax/Tarkio; and Noah Makings of Rock Port.

The Class 1, Sectional 4, golf match was held at Mozingo Lake Golf Course near Maryville, MO, on Monday, May 9. Both Shifflett and Marrs qualified for state competition after placing in the top 12 individuals not on the first and second place teams at sectionals (all members of the top two teams qualified for state play). Shifflett carded another 94. Mozingo's course is a par 72 layout. Marrs scored a 98 on the par 72 course. The first and second place teams at sectionals were Gallatin and Penney (Hamilton), respectively. Jase Hughes of Rock Port also qualified for state play after shooting a 91 in sectional play.

The Mound City Panthers are coached by Derek Petty. The state tournament at Fremont Hills Country Club in Nixa will get underway at 8 a.m. on both Monday, May 16, and Tuesday, May 17. Tee times were not posted as of press time. The top 15 individuals in the state event will receive medals.

Sectional track set for Saturday, May 14, at Albany

Several Holt County athletes are preparing for the Missouri High School Class 1, Sectional 4, Track Meet at the high school track in Albany, MO, this coming Saturday, May 14. After placing in the top four in the events at the Class 1, District 8, meet last Saturday, May 7, qualifiers are practicing to, hopefully, place in the top four at the sectional competition. The top four places at sectionals will qualify for the state track meet to be held at the Lincoln University Track and Field facility in Jefferson City, MO, on Friday and Saturday, May 20 and 21.

The Sectional 4 meet will pit District 8 qualifiers against the District 7 qualifiers to see who will make it to state. The Missouri High School Class 2 district qualifiers from Districts 7 and 8 will also compete at Albany on Saturday, May 14. Field events will get underway at 10 a.m., while running events will begin at 11 a.m. Class 2 athletes will compete first in each event, followed by Class 1 competitors.

South Holt FFA rounds out year with spring festivities

A trash pick-up, scavenger hunt, and plant sale are just a few things the South Holt FFA in Oregon, MO, has been doing to celebrate spring. Nearly 25 bags of trash lining Highway 59 earlier this spring were picked up. Those bags of trash were collected as part of South Holt FFA's Adopt-A-Highway Program. Twenty South Holt FFA members showed up to help out and enjoyed some delicious ice cream afterwards.

Following the trash pick-up and ice cream social, the members teamed up to participate in the annual FFA scavenger hunt. Members were given a four page list of things to collect ranging from signatures, an FFA Alumni jacket, a live animal, and canned goods to be donated to the Hope House. Each item was worth a specified amount of points and the team with the most points won.

To end the year, the chapter held its plant sale on Saturday, May 7, at the school greenhouse. Specializing in petunias and geraniums, the horticulture class grew a variety of plants for this year's sale. Ipomoea, lobelia, and black petunias were among some of this year's favorites for customers. A variety of mixed hanging baskets were created by the Horticulture class for the plant sale.

Trojanette 14U team places in Midwest Goliath Tourney

The 14 and Under (14U) Trojanettes (Carroll) team went 4-2 and took ninth place out of 27 teams in the Midwest Goliath Tournament held Saturday and Sunday, April 30-May 1, in Shawnee, KS. The tournament featured teams from four states.

In game one, the Trojanettes and Whiplash KC volleyed the lead seven times on Saturday, but the Trojanettes came out on top for a 4-3 win. Baylee Knorr was solid at the plate for the Trojanettes. Knorr went 2-3, drove in one and scored two runs. She singled in the fourth inning and doubled in the sixth inning. Kiah Huitt pitched lights out for the Trojanettes. Huitt gave up just three hits, allowed no earned runs, walked two and struck out four during her six innings of work.

Next, the Trojanettes faced the Blue Heat from Kansas. Again, the Trojanettes were victorious, this time by a score of 9-3. Sadie Smith got it done on the rubber on the way to a win. She allowed three runs over five innings. She struck out four, walked one and surrendered five hits. Shaina Culp, Knorr, Smith, Braidy Hunt, Riley McQueen and Emma Bohannon each had a hit in the victory. Huitt and Bohannon each had two runs scored, and Sadie Smith had two runs batted in (RBIs).

The Force from Omaha, NE, was the third opponent for the Trojanettes, and proved to be a tough opponent. The Trojanettes lost by a score of 17-0. Emily Cassavaugh took the loss on the mound, and Bohannon provided the only hit for the Trojanettes.

Following that tough loss, the Trojanettes bounced back with a 12-3 win over the Northland Cougars. Huitt recorded the win for the Trojanettes. She allowed three runs over four innings. Huitt

struck out two, walked none and gave up six hits. Culp and McQueen each had a hit in the victory. Madeline Smith, Culp and Maddyx Kirkland each had two runs scored, and Culp also had two RBIs.

For the final pool play game, the Trojanettes faced a very tough opponent, Team Nebraska. After trailing for most of the game, the Trojanettes scored four runs in the bottom of the fourth inning to take the lead. They tacked on another run in the fifth inning, and won 5-3. Sadie Smith pitched six innings and allowed one earned run, five hits and no walks while striking out five. Sadie Smith also was the leading hitter that game with two hits, one RBI, and one run scored. Madeline Smith, Knorr, Hunt, Kirkland and McQueen each had a hit, with Kirkland also racking up two RBIs.

After going 4-1 in pool play, the Trojanettes faced the Crush in the first round of the top flight of the single elimination tournament. The Crush scored early, and the Trojanettes had a hard time at the plate, resulting in a 10-3 loss. Huitt took the loss on the mound for the Trojanettes. Sadie Smith, Madeline Smith, Cassavaugh, Huitt, Knorr, and Bohannon each had a hit in the game. Sadie Smith had two runs scored.

The Trojanettes took their 10-2 record on the road on Saturday, May 7, when the team played in the Rose Classic in the Kansas City Metro area.
