## High winds rip through northwest Missouri

**Cause damage south of Mound City**

High, tornado-like winds ripped through northwest Missouri early Sunday morning, May 19, causing damage to the Jennifer and Tom Pardue residence south of Mound City at 29308 Highway 159. Around 12:45 a.m., the family's dogs were barking. Tom looked out the back door and saw all the deck furniture spinning around the yard. According to Jennifer, the strong winds were over in about 30 seconds, leaving behind a considerable amount of damage to their residence.

Siding was ripped off of the Pardue house, windows were blown out, deck furniture was smashed into the fence, parts of the chain link

fence around the yard were flattened, and trees were destroyed. There was a lot of glass and water damage to the inside of the house because of the broken windows and rain following the high wind. A 5'x8' children's playhouse located in the lawn was moved about 10' from its original location.

## Informal News Beat

This week's tragic tornado that ripped through Moore, Oklahoma, affected countless lives. My thoughts go out to those whose lives have now been drastically changed because of this disaster.

I have family members that live in the town of Moore and, in fact, resided directly in the path of the tornado. My cousin, Cristina Byrne, and her husband, Brian, happened to be some of the few that were lucky. Out of many homes that used to be in their neighborhood, only a few were left standing. One of the few that were left standing happened to be my cousin's. They were both at work when the storm went through, but knew that their home was in the path. In the aftermath of the tornado, they were finally able to make their way to their home, to find that it was one of the few left standing.

I'm glad they were safe, and realize that so, so many were not. Far too many children have had their lives cut short without even getting a chance to experience what life is all about. Life is short and in times like these, we are reminded of that brevity.

Sidney Breese presiding at this special service. In memory, the names of loved ones deceased will be read. Those in attendance should bring a chair and enjoy the beauty and peace of a historical country cemetery.

Walkup Grove, about 160 years old, still retains its natural beauty. It is nestled among a grove of hickory nut trees on top of a hill which falls to the west on a sharp decline to the Little Tarkio River. Tranquility and peacefulness reigns here. Travelers over a hundred years ago stopped at Mr. Walkup's farm and asked for a place on his land to bury their child. This neighborhood cemetery is an ecumenical one with all denominations of religion buried there. At one time, the neighborhood supported Presbyterian, Methodist, Baptist and Episcopal churches. St. Oswald's is now the only remaining church in this area.

# Command Sgt. Maj. John Sportsman takes reins of 110th Maneuver Enhancement Brigade

Submitted By Jennifer Archdekin,  
Missouri National Guard

The responsibilities for the training and welfare of the Missouri Army National Guard Soldiers in the 110th Maneuver Enhancement Brigade, headquartered in Kansas City, MO, was passed to Command Sgt. Maj. John Sportsman from Command Sgt. Maj. Mike Lederle during a change of responsibility ceremony on Sunday, May 5.

For the past 33 years, Sportsman, of Maitland, MO, has been a Missouri Citizen-Soldier. He comes to the brigade after serving the past six years as the command sergeant major for the 1-129th Field Artillery Battalion headquartered in Maryville, MO, which boasts about 500 artillerymen. Sportsman will now help oversee almost 2,000 guardsmen with units spread across Missouri. Sportsman has spent his entire career in field artillery, and, except for one year, he has been with the 129th.

"Field artillery is in my heart," said Sportsman. "It's a new chapter in my ca-

reer. I'm moving up, not out. We've got some great people that will fill my shoes, so I'm not worried about the 129th at all."

As the brigade command sergeant major, it is Sportsman's role to be the principal advisor for all enlisted-related issues, particularly those affecting training and quality of life for his soldiers. The non-commissioned officer corps is known as the backbone of the U.S. Army and he takes that charge very seriously.

"Command Sgt. Maj. Sportsman is a highly qualified professional soldier that I know will perform in an exceptional manner as he helps lead this unit in the coming years," said Col. William Ward, commander of the 110th Maneuver Enhancement Brigade. "He has done an incredible job supporting the enlisted soldiers and providing numerous commanders with expert advice and the wisdom three decades of service brings to bear. He is ready for a new challenge and is expertly qualified to help lead this unit."

"I'm looking forward to this opportunity and mak-

ing sure we do what we need to do," said Sportsman. "Training is the major thing; we have to make training aggressive."

Sportsman has a distinguished military career with two deployments. In 2005, he deployed in support of Operation Noble Eagle during a security forces' mission to Fort Sam Houston, TX. In 2008, he deployed to Kosovo on a peace keeping mission.

Sportsman's military awards include the Meritorious Service Medal, Army Commendation Medal, Army Achievement Medal, and various campaign, unit and service awards.

As a civilian, Sportsman serves as a maintenance technician with Northwest Missouri State University in Maryville. He is supported by his wife, Debbie, and their children, Tim Miller and Kennedy Sportsman.

The Holt County Historical Society is looking for answers to these questions that have been submitted by researchers.

### WALKER COUNTRY SCHOOL

Marjorie Chuning Spease, Independence, MO, sent this picture to the Holt County Historical Society last week "to put somewhere for preservation". The wonderful history was added to the school files. Walker School was in the "Arkansaw" community and many families lived there as is evidenced by the surnames in the photo.

"Arkansaw" was located in an area west of Big Lake, MO; east of the Missouri River; north of the railroad tracks; and south of the rock road (Gene Poynter information). When Walker closed, the students attended school in Fortescue, MO. Marjorie graduated from Fortescue High School in 1940.

## Craig R-3 receives \$1,000 for Missouri Safe and Sober campaign

This past school year, Craig, MO, R-3 participated in and won the Division 1 level of the Missouri Safe and Sober campaign. Students completed various activities related to alcohol awareness.

An activity was created by the Psychology class to show the impact of alcohol on coordination and simple task ability. Through the use of Fatal Vision goggles (which distorts vision as if alcohol was consumed), students attempted to perform multiple assignments such as walking a straight line, catching a ball and shooting free throws. The Psychology class then created a video presentation incorporating information from Safe and Sober as well as a student survey conducted about alcohol usage.

Another activity was taking a pledge to be safe and sober during prom, with 79% of students taking the pledge. As a reward, for those students participating and taking the pledge, they received gift cards from Best Buy and t-shirts as a courtesy of the Safe and Sober program. For winning the division, Craig R-3 received \$1,000 from Safe and Sober to be used to further promote the campaign through activities for the 2013-2014 school year.

Safe and Sober is a non-profit organization that creates awareness about the dangers of drugs and alcohol and encourages teens to lead a safe and sober lifestyle. Since its inception in 2004, the program has reached more than 120,000 students in Missouri. In 2013, Safe and Sober received a grant from the Missouri Department of Transportation to expand the program to ALL Missouri schools. ## Our patients gave us a thorough check up.

### The Results Are In And The News Is Good!

Our patients are recommending CH-F at higher rates than patients receiving care at regional hospitals. They are also ranking our inpatient care with a 9 or 10 (on a scale of 1 to 10) at higher rates than any other hospitals in the region. That is a bill of health we can be proud of!

## Ms. Tiffany Heights 2013

On Wednesday, May 15, Judy Carney was crowned Ms. Tiffany Heights 2013 at the facility in Mound City. She then represented Tiffany Heights on Friday, May 17, at the Ms. Nursing Home contest at the community center in Maryville, MO. Judy Carney was among 11 participants that competed in this year's pageant. Ms. Judy Isabell Carney was born on November 21, 1919, and was raised on a farm in Platte City, MO. She had two brothers and two sisters. In those days, they all worked on the farm and did their part to help with chores. She remembers that her mom used to can almost all their food and meat. Her mom taught her how to sew and they many made flour sack dresses. Judy also made flour sack dresses when her children were small. Judy went to school in a country school and walked only one mile. She went to Ruskin High School in Kansas City, MO, with her cousin. Judy lived with her cousin so she could go to high school un-

til the 10th grade.

Judy worked as a waitress at the Red Crown Cafe. (This was where Bonnie and Clyde were killed). This is where she met the love of her life and kept him for 52 years. They lived on a tobacco farm in Weston, MO. Judy and her husband worked in the tobacco fields side by side and raised corn, soybeans and cattle.

Judy and her husband raised three children, all girls. Judy loved to garden and can. She recalls that they even planted a victory garden, which is just another name for a garden. Judy and her family moved to Big Lake, MO, where they loved to fish, can and garden. Judy also loved to quilt, embroider tea towels, and go to church.

On Judy's 90th birthday, her three daughters took her to Las Vegas, NV. She loved it and she would someday like to go back.

With many activities at Tiffany Heights Nursing Home, Judy still likes to embroider and she has started working on more tea towels. Judy says, "Keeping busy keeps me young."

**Nola Russell of St. Joseph, MO, left, and Susan Bailey, of Oregon, MO, right-** Have put away their school supplies and grade books to enjoy retirement. After a combined total of 60 years, these ladies have decided to take time for themselves and their families.

## Two South Holt teachers put away their grade books

Susan Bailey of Oregon, MO, is calling it quits after 29 years of teaching at South Holt R-1 in Oregon, MO. Mrs. Bailey has taught 2nd grade, 4th grade, 5th grade and 6th grade over her many years. "Everyday as a teacher is rewarding! I love what I do. I have taught parents as children, and their children. Now that's exciting," comments Susan.

Mrs. Bailey says her reason for retiring is to spend more time with family and friends. She wishes to spend more time devoted to her husband Bert, daughters Sarah and Lauren, and playing with her grandchildren. During her retirement, Susan is going to fill her days traveling, sewing, gardening, and "doing whatever I want".

Mrs. Nola Russell of St.

Joseph, MO, has chosen to trade in her teaching materials for retirement. She has taught for 31 years as an elementary teacher. She taught 2nd grade at Dixon Elementary, in Dixon MO, from 1981 to 1982. From 1983 to 1994, she taught title math, 3rd, 4th, and 5th grades at Nodaway-Holt. In the fall of 1994, she started teaching at South Holt R-1 in Oregon, MO, where she taught grades 3rd, 5th and 6th.

Nola has enjoyed teaching. "Exciting things happen at school and every day is filled with new experiences and challenges," comments Nola.

Nola uses the words of Kenny Rogers, "You gotta know when to hold 'em and know when to fold 'em", on retiring. She knows that there will be several things that she will miss about teaching and she will also miss the many people she has taught with along the way.

Nola doesn't really have any definite retirement plans, although she is planning to do some traveling. She has a Black Hills trip planned with her sister this fall. Nola may also look for a part-time job that requires no paper grading after hours.

## MDC hosts fishing clinics for Mound City and Oregon students

The Missouri Department of Conservation (M.D.C.) protection division hosted three fishing clinics for Mound City and Oregon, MO, schools, 5th through 8th grades, and the Northwest Missouri Homeschool Cooperative, pre-kindergarten through 8th grades, this past week.

Over 150 kids attended the events and many of the kids were successful in catching fish. Mound City and Oregon students participated in a short classroom discussion on fishing and water safety and then traveled to Bilby Lake Conservation Area near Maryville, MO, where they fished, were given an electro-sampling demonstration, and taught briefly about pond ecology by M.D.C. Fisheries Management Biologist, Tory Mason. The Northwest Missouri Homeschool Cooperative students were also involved in a brief classroom presentation that included fishing/water safety and basic pond ecology. They then traveled to a private impoundment north of Mound City for their fishing exercise.

"Fishing clinics are a great way for us as law enforcement personnel to be involved in kids' lives in a positive light," says Conservation Agent Jade Wright. "If we are going to make a difference in the future, we have to impact kids today. Simply put, the more kids we can teach to be conservation minded now

## CH-F celebrates highest customer satisfaction in region

For over 60 years, Community Hospital-Fairfax, MO (CH-F), staff has welcomed newborns, mended broken

bones, and witnessed families rejoicing in the recovery of loved ones. There is no greater satisfaction than giving patients a clean bill of health. Now, the tables have turned and patients have been given the opportunity to give CH-F a checkup. Through patient satisfaction surveys, CH-F is learning how the patients feel about the care they receive and the results make CH-F proud.

According to www.hospitcompare.hhs.gov, the official website for Medicare, CH-F patients are more satisfied than patients using services at neighboring hospitals. On surveys, patients report "YES", they would definitely recommend this hospital at rates higher than neighboring hospitals. Additionally, patients are ranking CH-F with a 9 or a 10 on a 10 point scale more often than all surrounding hospitals.

Not only can CH-F celebrate great customer service on a regional level, but on both the "would you recommend and how would you rank questions", CH-F numbers were higher than both the state and national averages!

Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) is a nationwide survey used by all hospitals in the nation. The

HCAHPS survey is the first standardized, publicly reported survey of patients' perspectives of hospital care. The survey asks discharged patients to rate their care experience and overall rating of the hospital and if they would recommend the hospital to family and friends, among other questions.

CH-F gets a more complete picture of what is happening at the hospital and can target improvements in different departments when it uses HCAHPS, explained hospital CEO, Myra Evans.

"We appreciate every patient that returned a survey and are so pleased with our patients' positive feedback. They have made the mission to be available to the community in all aspects of health care, and that means both their physical well-being and listening to the patients' needs with a compassionate ear," Evans said.

The survey gives patients peace of mind that their opinions are heard and also gives Community Hospital-Fairfax the feedback its staff needs to develop ways to improve the patient experience.

were down. Atchison-Holt Electric Cooperative also responded and repaired the downed power lines and restored power in about four hours after the storm.

The Missouri Department of Transportation was at the scene on Monday morning, May 20, to clean up trees, limbs and debris from the highway and the Pardue driveway. Neighbors and friends of the Pardues have offered assistance in cleaning up the mess. As of press time, the family was waiting for the insurance adjusters to arrive before clean-up could begin.

Reports of other storm damage in the area near the Pardues revealed lawn and

deck furniture blown away, and swing sets blown over. There were reports of damage south of Fairfax, MO, as well, to include a shed being blown over.
